PROFESSIONAL SUMMARY

Full Stack Developer and Software Test Engineer with 3+ years building Spring Boot APIs, React experiences, and automation frameworks. Specialized in Playwright, Selenium WebDriver, and REST API testing — with strong background in Agile delivery, CI/CD pipelines, and cross-functional collaboration across cloud-native systems.

CORE COMPETENCIES

Full Stack Development • Spring Boot & REST APIs • React & TypeScript • Automation Framework Development • Playwright & Selenium WebDriver • REST API Testing • Microservices Validation • CI/CD Integration • Agile / Scrum • Root Cause Analysis

TECHNICAL SKILLS

Programming Languages: Java, TypeScript, JavaScript, Python, SQL

Automation & Testing: Playwright, Selenium WebDriver, Cucumber BDD, TestNG, JUnit

Testing Types: Manual, Regression, Functional, Integration, E2E, Database, API Testing

Backend: Spring Boot, Node.js, Express.js, REST APIs, Microservices, Maven

Frontend: React, Redux Toolkit, Tailwind CSS, HTML & CSS

Databases: MySQL, MongoDB, DynamoDB

DevOps & Tools: Git, GitHub, GitHub Actions, Docker, AWS, CI/CD, Postman, RestAssured

Other Tools: VS Code, IntelliJ IDEA, Jira, Confluence

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer — 2024 to Present

Independent — Web & Mobile Applications

- Build responsive websites and full-stack web applications for freelance clients
- Develop mobile-friendly interfaces and cross-device experiences with React and Tailwind CSS
- Design and implement REST APIs with Spring Boot for business dashboards and e-commerce flows
- Handle requirements gathering, development, testing, and client handoff end to end
- Deliver cloud-backed applications with a focus on clean UI, reliable APIs, and QA discipline

Software Test Engineer · Full Stack Developer — Nov 2023 to Jan 2026

PTR Technology — Hyderabad, India

- Designed and developed scalable backend REST APIs with Java and Spring Boot
- Performed manual, regression, and API testing for web and cloud applications
- Built automation frameworks with Selenium WebDriver, Cucumber BDD, and TestNG
- Validated cloud-based applications — business logic, database integrity, and microservices
- Collaborated in Agile/Scrum teams on defect resolution, RCA, and release quality
- Improved test coverage through automation and reusable test components

EDUCATION

B.Tech — Computer Science & Engineering — Graduated 2023

Intermediate (12th grade) — Completed 2019

Secondary School Certificate (SSC) — Completed 2017
